

Conference Calendar

1st Apimondia Conference on Organic Beekeeping

Black Sea Coast , Bulgaria

27—29 August 2010

All topics concerning organic beekeeping will be discussed. This will include one session on Bee Products and Apitherapy, and another focussing upon Regulation and certification.

4th European Conference on Apidology

Metu, Ankara, Turkey

7-9 September, 2010

On behalf of the EurBee Board and the Middle East Technical University Department of Biology, the organisers would like to invite you to join them at the EurBee4 conference. The aim is to share knowledge and experience and to improve the well-being of bees and human societies.

IBRA will have a stand in the exhibition hall and a paper is being presented by Norman Carreck, IBRA's Scientific Director.

Apimedita and Apiquality Forum 2010

Ljubjana, Slovenia

28 September - 2 October 2010

Apiquality Forum

- Current state and development of international standards and legislation for honeybee products.
- Practice in the introduction of quality control systems for the production and processing of honeybee products.
- Local trademarks of honeybee products and their success on the global market
-

Apimedita Forum

- Nutritional value of honeybee products for target age and activity population groups.
- Role of microorganisms for honeybee products with added value (case of bee bread).
- Medical use of honey, current trends, and market situation

Four locations have been chosen by the Slovenian Beekeepers' Association to host the Satellite Symposia on Friday, 1 October, 2010: Maribor, Bled, Lipica and Dolenjske toplice.

Many representatives of the **JAAS** Editorial board will be present at the conference and Senior Editor Rose Cooper will be presenting a paper. Remember to visit the IBRA stand at the API EXPO exhibition.
